

EXERCISE 1C

WINDOWS FUNDAMENTALS 3

AIM:

To understand and utilize built-in Microsoft security tools such as Windows Updates, Windows Security, and BitLocker to enhance the security and integrity of a Windows system.

The screenshot displays the 'Windows Fundamentals 3' course interface. At the top, the breadcrumb trail reads 'Pre Security > Windows Fundamentals > Windows Fundamentals 3'. The main title 'Windows Fundamentals 3' is accompanied by a Windows logo with a padlock icon. Below the title, a description states: 'In part 3 of the Windows Fundamentals module, learn about the built-in Microsoft tools that help keep the device secure, such as Windows Updates, Windows Security, BitLocker, and more...'. A link for 'Info' and a duration of '30 min' are provided. A green button 'Share your achievement' is on the left, and a row of buttons includes 'Start AttackBox', 'Help', 'Save Room', a thumbs up icon with '3918', and 'Options'. A green progress bar at the bottom indicates 'Room completed (100%)'. Below this, a list of 10 tasks is shown, each with a green checkmark and a dropdown arrow:

- Task 1 Introduction
- Task 2 Windows Updates
- Task 3 Windows Security
- Task 4 Virus & threat protection
- Task 5 Firewall & network protection
- Task 6 App & browser control
- Task 7 Device security
- Task 8 BitLocker
- Task 9 Volume Shadow Copy Service
- Task 10 Conclusion

RESULT:

Successfully learned how to configure and manage Windows security features, ensuring system protection through updates, antivirus measures, and encryption mechanisms.
